Are you diagnosed with a **serious mental illness** like Schizophrenia, Schizoaffective Disorder, Major Depressive Disorder, Bipolar Disorder or Psychosis NOS?

Do you take either Risperidone (Risperdal), Olanzapine (Zyprexa) or Iloperidone (Fanapt)?

If so, you may be eligible to participate in an **8-week research study** conducted at the Massachusetts General Hospital, Freedom Trail Clinic & Clinical Research Center.

- We are studying the metabolic side effects of Risperidone, Olanzapine and Iloperidone.
- ❖ You will be compensated for your time.
- ❖ If you are interested and would like more information, please call Shayna Schor at 617-912-7882.
