

Laboratory for Clinical and Developmental Research

Harvard University

**Are you a female between 15 and 19 years old
and currently suffering with depression?**

OR

**Do you have a daughter between 15 and 19 years old
currently suffering with depression?**

- If so, you/your child may be eligible for a **confidential** research study
- Eligible participants will be paid up to **\$85** for this study
- Participation involves two lab visits to answer questions and play computer games while in a MRI machine that takes pictures of your brain, and a brief telephone interview 6 months later

To learn more, please contact Dr. Cassie Glenn at
(617) 496-8563 (ext.5) or nocklab@fas.harvard.edu
and refer to the **"MRI study"**
